

CLAIMS

1. Cosmetic product for shaving, constituted by a transparent gel which contains a gelling agent, an agent which promotes the gliding of the blade or a humectant and a surfactant, characterised in that it includes the following constituents:

glycerine	3-7%
urea	3-7%
triethanolamine	1-3%
sodium carboxymethylcellulose	1-3%
Tween 80	1-3%
purified water	remainder

the percentages being expressed by weight.

2. Cosmetic product for shaving according to claim 1, characterised in that the constituents of the transparent gel are preferably the following:

glycerine	5%
urea	5%
triethanolamine	2%
sodium carboxymethylcellulose	2%
Tween 80	2%
purified water	84%

the proportions being indicated by weight.

3. Cosmetic product for shaving according to claim 1, characterised in that it is possible to use as a replacement for glycerine: liquid paraffin, sweet almond oil, coconut oil, olive oil, palm oil, sunflower oil, corn oil, jojoba oil, avocado oil.

4. Cosmetic product for shaving according to claim 1, characterised in that it is possible to use as a replacement for triethanolamine: monoethanolamine and diethanolamine.

5. Cosmetic product for shaving according to claim 1, characterised in that it is possible to use instead of carboxymethylcellulose: methylcellulose, gum arabic, polyvinylpyrrolidone, carrageenin, hydroxypropylcellulose, gum tragacanth, carboxypolymethylene, agar gum, xanthan gum.

6. Cosmetic product for shaving according to claim 1, characterised in that it is possible to use as a replacement for Tween 80: (polysorbate 80), (sorbitan polyester), polysorbate 20, polysorbate 60, sorbitan 20 ester, sorbitan 60 ester, sorbitan 80 ester.
